

Embracing all living beings on planet earth.....

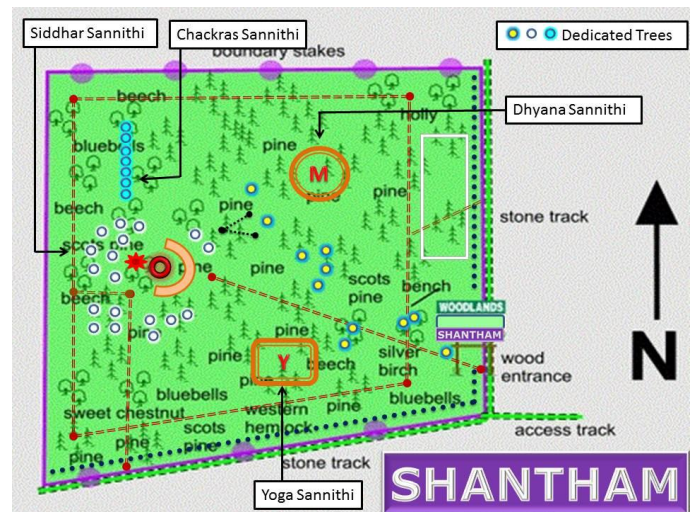

3.25 acers of protected Woodlands (SHANTHAM) to be managed by Enlightenment Circle at Brentwood in Essex (UK).

Enlightenment Circle is embarking on a programme to embrace all living beings which is called **“Life with Nature”**. This will positively contribute towards the awareness of building an Eco system.

As a first step in the right direction we have been allocated to manage a 3.25 acers of protected woodlands area, which consists of approximately 2,000 trees.

Proposed SHANTHAM Layout

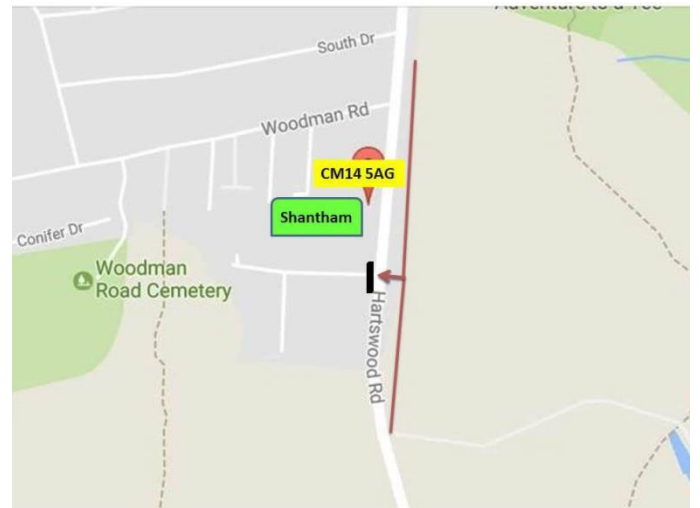

We have decided to call the woodlands **“SHANTHAM”**. This place will facilitate to increase the awareness of “Life and Nature” for all age groups, in particular to the younger generation.

We are planning to conduct a Yaham (a traditional prayer for inner harmony around the Fire) to commemorate the International Yoga Day on the 25th June'17 (10:30 a.m. – 1:30 p.m.) conducted by our Yoga Guru Yogi Ram Sunthar.

We dedicated some trees after Siddars and saints who are instrumental for inner transformation in human beings.

This is situated in Brentwood, Essex which is 20 mile away from the heart of London towards the East. This place will become a space for inner transformation for every seeker.

We welcome you to take part in this unique occasion. Please contact for further information on:
